

Team Cache Me If You Can

Curated For You, By You: User Manual

How to Use the Application

The application is designed to be simple and intuitive. Here's a walkthrough of the main features:

1. Landing Page

When you first open the application, you'll see the landing page. This page provides a brief introduction to the application. From here, you can navigate to the search page to start discovering artists.

2. Searching for Artists

1. Navigate to the **Search Page** from the landing page.
2. On the search page, you'll find a search form with the following fields:
 - **Genre**: Select a music genre from the dropdown list.
 - **Country**: Enter the country where you want to search for artists.
 - **City**: Enter the city where you want to search for artists.
3. After filling in the search criteria, click the "Search" button.
4. The application will display a list of artists that match your search.

3. Viewing Artist Details

From the search results, you can click on any artist's name to view more details about them. The **Artist Page** provides comprehensive information, including:

- **Artist Bio**: A summary or description of the artist.
- **Albums**: A list of albums released by the artist.
- **Images**: Pictures of the artist.

4. Artist Register Page

This page will allow you to become a registered artist within the CFYBY database.

1. Enter your artist information into the text fields. This is data is how you will be found by listeners and other musicians on the platform.

- Enter your **artist name**, **city**, **state**, **country**, and **genre**

2. Enter your discography info. You can enter as many albums as you wish by using the *Add New Album* button at the bottom of the form. An album consists of...

- An **album title**, **release year**, **image resource link**, **tracks**
- Multiple tracks can be added using the *add track* button within the album section of the form.
- A track **name** and **length in minutes:seconds** is needed.
